

## Position Description

<b>Role title</b>	Assistant Development Manager	<b>Last reviewed</b>	1/05/2024
<b>Division</b>	Property and Major Projects / Residential Project Delivery and Assets	<b>Team</b>	Various
<b>Reports to</b>	Varies	<b>Classification</b>	AS06
<b>Direct reports</b>	Nil		

### Role Purpose

- Coordinate and implement the early stages of opportunity development and support the management of project delivery to ensure the achievement of project goals, objectives and KPIs.

### Key Accountabilities

- Coordinate and support the management of pipeline projects, including development planning, design, market feasibility, and due diligence, to ensure critical, strategic, operational and financial outcomes are met.
- Develop high level reports on project objectives, monitoring and tracking progress, to ensure projects are on track and to identify potential risks and opportunities.
- Provide advice and assist with the management of developments from concept through to completion to contribute to project success.
- Collaborate and negotiate effectively with key stakeholders to ensure on time and efficient delivery of critical development projects to achieve favourable outcomes.
- Maintain and build relationships and networks across the organisation and with commercial developers to optimise opportunities to collaborate and support the achievement of inter-dependent objectives.
- Manage external consultants and contractors to ensure optimal preparation and delivery of projects and initiatives.
- Other duties as required.

### Key Relationships

Internal	
Who	Why
Manager	Receive guidance and instruction, seek clarification and advice, and report on progress against work plans.
Work Team	Participate in meetings, share information, and provide input on issues. Support team members and work collaboratively to contribute to achieving team outcomes.
Internal Stakeholders	Respond to queries, exchange information, and work collaboratively to resolve issues.
External	

Who	Why
Other Government Agencies	Establish networks and collaborative relationships across SA Government to share ideas and learnings and develop common responses to emerging issues.
External Stakeholders	Engage with relevant stakeholders to facilitate communication, provide expert advice, gather, and exchange relevant information.
Vendors/Suppliers/Consultants	Manage contracts for quality, on-time service delivery, compliance, and performance targets.

## Key Challenges

- Managing and delivering multiple tasks, activities, projects and deadlines, often in partnership with other State and Commonwealth agencies or organisations, while resolving project issues in a complex and sensitive stakeholder environment.
- Managing changing government priorities and stakeholders while balancing competing priorities and objectives to support projects development and delivery.

## Qualifications and Technical Requirements

- Tertiary qualification in Property, Development, Planning, Land Economics or other related fields.

## Special Conditions

- Out of hours work may be required.
- Inter/intrastate travel may be required.
- The incumbent must meet the WHS responsibilities and accountabilities as set out in the Renewal SA WHS Policy commensurate with their role. This includes ensuring that any work undertaken by or on the behalf of Renewal SA, is undertaken in accordance with the WHS Act 2012, Regulations, Codes of Practice, and internal Specifications.
- The incumbent is responsible and accountable for keeping accurate and complete records of their business activities in accordance with the State Records Act 1997
- The role is deemed a 'Position of Trust' pursuant to the standards required in the Australian Government Protective Security Policy Framework
- A current satisfactory National Police Clearance is required and renewed as per Renewal SA's policy.

## Key Capabilities

The [Renewal SA Capability Framework](#) integrates the Renewal SA Strategic Plan and the South Australian Public Sector Values to define the capabilities we need to operate effectively. Our Framework is led by four principles that are critical themes and considerations that ensure safety, personal leadership, best practice, and our communities are at the forefront as we apply our capabilities.

All the capabilities within the Renewal SA Capability Framework are relevant for all employees. The below outlined capabilities are specifically needed to successfully perform the role.

Capability Group	Capability	Level	Behaviours
