experience placements

**219**  
Renewal SA contracts  
paid employment

**1**  
Traineeship/  
apprenticeship

**1**  
Indigenous contractor  
in the supply chain

## THE WORKS PROGRAM DELIVERS ECONOMIC OUTCOMES THROUGH:

- Employment and work experience opportunities in Renewal SA managed contracts
- Engagement, training and employment programs in partnership with registered training organisations.

## DISABILITY SUPPORT CAREERS

With more than two thirds of participants of our second Lighthouse Disability Support program securing full-time employment, we decided to offer it for a third time in 2019, this time including a placement preparation workshop designed to enhance participants' employability skills.

2018 graduates of the program were quick to describe the program and their subsequent career transitions as life changing and empowering.

"Working with disabled people has changed my attitude to life and it's changed my attitude to work." – Andreas Scherer

"The program is great it has lots of practical components... the work placements were excellent – people who started out nervous came back with confidence." – Sandra Walter

## WOMEN IN CIVIL CONSTRUCTION

We love seeing women succeed in the civil construction industry, so we were pleased when Civil Train graduate Rhianon McBryde-Rousseff not only secured full-time employment with LR&M Constructions, but accepted a Certificate III in Civil Construction traineeship earlier this year as part of the economic development clause in LR&M's contract for civil works at Playford Alive.
