

## HOW TO RESTORE HERITAGE PROPERTY Workshop

### ABOUT THE WORKSHOP

FCTA – Building Careers in partnership with Renewal SA's Works Program, has developed a one-day workshop to help current or future owners of heritage properties with renovation planning.

Adelaide and suburbs such as Bowden, Brompton and Port Adelaide are blessed with a variety of heritage-protected character homes.

Owning these properties comes with a responsibility to conserve their heritage.

If you are planning on renovating a heritage property, this workshop is designed for you.

### WHAT'S INCLUDED

A walking tour of the former Bowden Gasworks site highlighting key buildings to help explain technical terminology and understand the principles of heritage conservation.

Lunch will be provided. Advise of any dietary requirements when registering.

### WHAT TO WEAR

Enclosed footwear is required for the walking tour.

### WHAT YOU'LL LEARN

The workshop will be delivered by a UK and Australian-qualified tradesperson and trainer with experience working on heritage buildings in both the UK and South Australia.

This workshop will cover:

- understanding the cause of common issues that occur in older homes
- the types of materials that should and shouldn't be used
- questions to ask tradespeople about the scope of works and their licences
- what to request tradespeople to include in their quotes
- principles of heritage conservation from the Burra Charter
- the importance and benefits of regular maintenance
- how to work with your local council while planning your renovation.

### COVID SAFETY

Do not attend if unwell.

Participants will be required to check in.

### REGISTER NOW

Registration is required as places are limited.

Preference will be given to residents of western Adelaide.
